Short description

Hillfarm Oils is the UK's premier producer of Extra Virgin Cold Pressed Rapeseed Oil and in addition produce a range of Mayonnaises made with our oil. Hillfarm Oil is available in all major multiple retailers, independent retailers, farm shops, delis, food service and retail wholesalers.

Environmental highlights

The Fairs family grow all the rapeseed used to produce Hillfarm Oils within a 15 mile radius of the production site. Hillfarm Oil is a sustainable alternative to imported Olive Oils which can travel up to 3000 miles to the UK.

Green credentials

Bronze Award from the Suffolk Carbon Charter

A summary of environmental achievements

Hillfarm Oils plan to invest in Solar Panels which will provide up to 80% of our energy requirements.

Personal testimony

Completing the Carbon Charter audit identified the carbon generating areas of our business and provided a starting point from which we can work to monitor and reduce the carbon we produce.

Key lessons

The templates provided gave us good framework to work within.

Where did I get my advice

The advice available directly from the Suffolk Carbon Charter was invaluable, without this level of support and their encouragement we would not have achieved our Bronze award.
