Short description of the business

Here at Hollybush Farm Produce we make pies and pastries to suit all needs. Our unique combination of production methods enables us to supply everyone from the national wholesaler to the village shop. We are based in Buxhall Stowmarket Suffolk and we manufacture sausage rolls, hand crafted pies and pastries using only the finest locally sourced meat and wheat from East Anglia.

Environmental highlights

Supporting the local environment - Local means a lot to us at Hollybush farm, we love to be a part of helping the community by providing locally produced products which everyone could be proud of.

Personal testimony

The benefits to the company have been endless. Mostly through the savings we've made on fuel expenditure and electricity. It is important to us to be involved in a local scheme and to demonstrate our commitment locally.

Key lessons

Planning is key. Seek advice or research yourself into achieving carbon reduction and environmental improvements, as there is ALWAYS room for improvement. Try not to close down the opportunity to make environmental improvements due to costings as long term the improvements are a real financial benefit.

Where did I get my advice?

We conducted research ourselves and Aimee Clark Senior BEE Anglia Advisor at Groundwork Suffolk and Norfolk was an immense help.
