Bellwin Scheme (England)

Status:	Open for Applications
---------	-----------------------

Grants to local authorities in England which would otherwise be faced with an undue financial burden as a result of providing relief in response to large-scale emergencies and carrying out immediate work.

Fund Information

Funding body:	Department for Communities and Local Government (DCLG)
Maximum value:	Discretionary
Application deadline:	None specified

Who Can Apply

Eligible organisations include:

- County councils.
- District councils.
- Greater London Authority.
- London borough councils.
- The Common Council of the City of London.
- The Council of the Isles of Scilly.
- A police authority established under schedule 3 of the Police Act 1964: police authorities can apply directly for a Bellwin scheme, however, where a police authority provides assistance to a local authority, it is also open to the police authority to enter into an agreement with the local authority under section 25 of the Police Act 1996 and to recoup its additional costs direct from the local authority, rather than apply for a separate Bellwin scheme.
- A joint authority established by Part IV of the Local Government Act 1985, other than a metropolitan county passenger transport authority.
- A Combined Fire Authority.
- A National Park Authority or Broads Authority.

Before being eligible for a grant, an authority must have spent at least 0.2% of its annual budget on works that are eligible for Bellwin grants. This is known as their threshold.

Woodland Carbon Code

Status:	Open for Applications
---------	-----------------------

The Woodland Carbon Code sets out robust requirements for voluntary carbon sequestration projects that incorporate core principles of good carbon management as part of modern sustainable forest management.

Fund Information

Funding body:	Forestry Commission
Maximum value:	Discretionary
Application deadline:	None specified

Who Can Apply

The Woodland Carbon Code can benefit a range of organisations seeking to establish and invest in woodland creation projects for carbon sequestration, including:

- Businesses - WCC projects create real and verifiable carbon units which can be bought and used by businesses wishing to reduce their impact on the global climate and cost-effectively compensate for their emissions. As a business manager, businesses will only want to buy units from carbon-capture projects if they feel confident that the woodlands will be well managed and will capture the CO₂ claimed. Verification against the Woodland Carbon Code meets this need by providing the evidence. Businesses can also be reassured that they can track the purchase, ownership and use of credits on a highly respected registry.
- Landowners - Landowners seeking to create woodland or partner with an organisation to create woodland can identify potential partners and investors.
- Carbon companies - involved in carbon sequestration can use the Woodland Carbon Code to reassure investors and identify high standard projects that are fit for investment.

Location

UK.

[Workplace Charging Scheme \(WCS\) - for Applicants](#)

Status:	Open for Applications
---------	-----------------------

A scheme to provide eligible applicants with voucher support towards the upfront costs of the purchase and installation of EV chargepoints in the UK.

Fund Information

Funding body:	Office for Zero Emission Vehicles (OZEV)
Maximum value:	Discretionary
Application deadline:	None specified

Who Can Apply

The scheme is open to organisations that fulfil all of the following criteria:

- Are a registered business, charity, or public sector organisation (evidenced by a Companies House Reference, VAT Registration Number or HMRC Registration Letter).
 - Must be either:
 - a Public Authority – includes Government Departments and their agencies, the Armed Forces, Local Governments, the NHS and Emergency Services. In considering eligibility, OZEV will use the Public Authorities referenced in LGA Act 2003, Section 33, and the Freedom of Information Act, Schedule 1, parts 1-3;
 - Or if not one of the above must have received less than Euro 200,000 of public support in the last three fiscal years (previous two fiscal and current fiscal year), or which is currently pending before applying for the WCS and satisfy the eligibility criteria for de minimis aid.
 - Can declare a need for electric vehicle charging equipment or an intent to encourage uptake among their staff and/or fleet.
 - Are located in England, Wales, Scotland or Northern Ireland.
 - Has dedicated off-street parking for staff and/or fleets.
 - Own the property or have consent from the landlord for chargepoints to be installed at all the sites listed in the application.
-

Applicants that are part of a franchise are eligible for this grant. There is a maximum of 20 franchisees from each franchise that can apply. For applicants that are part owned by one or more organisations, part of a franchise, or formed of a number of subsidiaries, they must satisfy the eligibility criteria for de minimis aid and declare any partnerships or franchise arrangements in their application. Where considered necessary OZEV reserves the right to request further information or documentary evidence from relevant parties in support of any individual claim.

Applicants must maintain the chargepoint for a minimum of three years and ensure measures are in place to provide usage data to OZEV (in an anonymised form and in accordance to data protection legislation) to guide future policy development. If the chargepoint needs to be removed or taken out of commission within this three year period, OZEV must be informed with a brief explanation why.

All chargepoints will have a minimum three year warranty on parts and installation from the chargepoint manufacturer as part of the technical specifications for the scheme.

Applicants must retain all documentation pertaining to the installation, including installation and commissioning confirmations and certificates, invoices, declarations and signatures, and dates of installation for a minimum of three years. Applicants must be able to send this in electronic form to OZEV if requested.

OZEV will involve a third party organisation to audit claims to determine compliance with the scheme's rules. This will require access to data, statements and records held by the applicant and/or chargepoint installer relating to the scheme. Occasionally, there may be an on-site visit which will require access to the chargepoint itself.

Location

United Kingdom.
